- Dreamweaver
- Sketch
- Affinity Designer
- Pixelmator

FRONT-END DEV

- Yeoman/Bower/Grunt
- SASS/Compass
- Bootstrap
- JavaScript/JQuery
- SVG
- Font Awesome
- Angular
- Ruby On Rails
- WordPress

PROFILE

Art Director in the late '80s in Miami. In 1993 moved to London, England and worked at top ten Advertising agency TBWA (Omnicom). In the late 90s I transitioned to 'Multimedia', web and UI design. I freelanced in the early 2000s, now full-time UI/UX Design & Front End Dev.

Guru-level with all Adobe Creative Suite, Sketch. Axure wireframing, though often straight to Bootstrap design in-browser. Love reducing complexity into simplicity, when designed well the user interface seems inevitable. I stick to the brief and work rapidly. I enjoy work. For coding I use Sublime Text and the Command Line.

Last job: Civic Inc, UI/UX Design for Nashville Metro internal and external websites. Tackling complex government UI/UX challenges: Permit Systems, Land Management, Bridge Admin, Funds Management. Reducing many pages into simple navigable interfaces and presenting complex data in an easily digestible manner.

Prior work, JPay, unusual clientele: Inmates and their friends & family. I designed for a captive audience! It's challenging to make simple UX for low-literacy customers. I created, produced and admin'd all JPay projects' UI single-handed (some print work). So whether it's an entire website, wireframes, theming, interactive PDF, new app UI, skin job, a set of icons, a few more buttons I can deliver. I'm a coder groupie :) Motto: Don't let 'design' get in the way of communication.

PORTFOLIO

Civic Inc, Bridge Admin

This screenshot shows a detailed view of a bridge project. At the top, it displays the bridge's name: "Spring Branch Rd/Spring Branch" and its ID: "Bridge ID: 190A6590003". To the right, there is a summary table with the following data:

SUFFICIENCY RATING	77.2
BRIDGE RATING	GOOD
STRUCTURALLY DEFICIENT	NO
FUNCTORIALLY OBSOLETE	YES

Below this, a section titled "Scoping > BMRs" is visible. It contains a table for "BMRS" (Bridge Maintenance Requirements) with the following data:

#	Recommendations	Type	Cost \$
8	Repair deck drain pipe span 2	BMR	\$892,040.00
1	Repair deck drain pipe span 4	Comment	\$7,162.50

A total estimated cost of \$899,202.50 is displayed at the bottom of this table.

*Preliminary Cost Estimate For budgetary purposes, Metro developed a preliminary cost estimate of the work required to resolve TDOT's BMR. The cost estimate was based strictly on the information presented in TDOT's bridge inspection report, therefore certain assumptions for quantity of material and effort of work were assumed. Estimate does not include Mobilization.

The screenshot shows the Civic Inc. Land Management interface. On the left, a sidebar menu includes options like Address, Owner, Property, Parcel Genealogy, Comments, Land Use, Tax Assessments, and Zoning. A search bar at the top is set to 'APN 06800003300 4551 JENNIE BROWN LN'. The main content area displays the 'CURRENT OWNER' section for Civil Constructors, Inc., with details such as Sale Code, Source, Instrument, and Date Acquired. Below this is a 'Previous Owners' section listing five previous owners with their names, addresses, sale dates, and instrument types. To the right is a map of the property's location, overlaid with various colored zoning or land use categories.

Civic Inc, Land Management

The screenshot shows the Civic Inc. Capital Funding Management interface. At the top, it says 'Capital Funding Management' and 'Chris Doty'. The main area is titled 'PROGRAMS/PROJECTS' and features a table for budget allocation. The columns include BU #, BU NAME, BUDGET ALLOCATION, ALLOCATED, ENCUMBERED, UNALLOCATED, and UNENCUMBERED. Below this table is a detailed view of a specific project: 'Bridge Maintenance Program' managed by Jeff Campbell. It shows a breakdown of allocated and unallocated funds. At the bottom, there's a 'JOURNAL ENTRY DESCRIPTION' and 'AMOUNT' input field with an 'ADD JOURNAL ENTRY' button.

Civic Inc, City Funding

786 439 9168 - druharper@gmail.com

The screenshot shows the Nashville E-Permits system interface. At the top, there's a banner with a photo of a construction worker wearing a hard hat. Below the banner, the main content area has four main sections: 'GENERAL INFO' (About Permits, Contact Us), 'ONLINE PERMITS' (Apply for a Permit, Search for Permit), 'PERMIT INSPECTIONS' (Schedule, View Results), and 'TRADE LICENSES' (Look up a License, Renew your License). A search bar is at the top right, and a message from the city states: "Nashville is pleased to introduce an upgraded version of e-permits. Ut enim ad minim veniam, quis nostrud exercitation ullamco laboris tempor incididunt ut labore et dolore magna. Ut enim ad minim veniam." A yellow button labeled "card • Apply for 'trade permits' (plumbing, electrica)" is visible.

Civic Inc, Permits

Civic Inc Bikeways

The screenshot shows the Civic Inc Bikeways website. On the left, there's a sidebar with links: Home, What is a Bikeway?, Bikeways Maps, Bikeways Planning, Bikeway Signs, Bikeway Safety, FAQ, Parks & Greenways, Bus Information, and Customer Service. The main content area features a large image of a person riding a bike in front of a city skyline. Below the image, there are two columns of text. The left column contains a heading "Lorem Ipsum Dolor" and some placeholder text. The right column contains a heading "Aliquam sagittis libero" and also contains placeholder text. The footer of the page is a dark grey bar.

JPay.com website

The screenshot shows the main landing page of JPay.com. At the top, there's a banner for "Your home for corrections services" with options to "Send money", "Sign up and start today", and "Friends & Family Forum". Below the banner, there are sections for the "JPay App", "Friends & Family Forum", and "Parole & Probation". On the right side, there's a "Send Money" form with a photo of a smiling woman and a "Next" button. The footer contains links for "Inmate Services", "Parole & Probation", "Social", and "Help".

JPay.com website

This screenshot shows the first step of the "Send Money" process. It features a "Payment Method" section where users can select a card (Master Card) and enter a validation code. Below this is a field to "Enter Amount \$80.00". At the bottom are "Back" and "Continue" buttons. The footer includes standard links for "Inmate Services", "Parole & Probation", "Social", and "Help".

JPay Email

The image shows a promotional email for the JP4 tablet. At the top left is the JPay logo. The central focus is a silver tablet device with a screen displaying the JP4 logo, set against a background of Earth's horizon from space. Below the tablet, the text "JP4: An Entertainment Odyssey" is displayed. To the left of the tablet, there is a paragraph of text describing the device. To the right, a box lists "JP4 Apps" and their price of \$49.99. Below the tablet are two screenshots of the device's user interface, one showing a radio tuner and another showing a music player interface with a song by Luke Bryan. At the bottom, a button encourages users to "Give the gift of Music".

You can buy the revolutionary new inmate mini-tablet at JPay.com starting TODAY! Make your inmate's world better with this all-in-one touchscreen device that offers music, games, e-books and (soon!) the ability to read and write email.

JP4 Apps **\$49.99**

- Music
- FM Radio
- Calculator
- Email coming soon
- 2 Puzzle games

Buy a JP4 for your loved one at the low price of \$49.99 [online here](#), or you can help them purchase one by funding their prepaid media account (by clicking “Send JPay Credits” in the Music section). Players will be delivered 30 - 45 days after your purchase has been confirmed.

Give the gift of Music

He's about to have his first JPay Video Visit

Most Saturday mornings, Brandon puts sixty bucks into his tank and drives a couple hours to see Erin at the Mission Creek Corrections Center. It's a small price to pay to see his wife's face.

But Erin's birthday's on a Tuesday this year, and Brandon can't get away. So he's doing the next best thing – JPay Video Visitation.

[He's about to have his first JPay Video Visit](#)

With JPay Video Visitation, you can chat face-to-face with your loved one from home, the office, or if you're Brandon, the front seat of your pickup. It's the next best thing to being there.

Learn more about Video Visitation in your area at JPay.com.

Lottery Evolved

mLotto™ is the end-to-end platform that ushers state lotteries—and their games—into the mobile age. Powered by a national leader in government payments, mLotto creates an environment where gameplay is not only intuitive and fast, but also in full compliance with state and federal guidelines.

As a white-label platform, mLotto allows each lottery to maintain the integrity of its brand while dramatically expanding its reach into the mobile space. mLotto's development capability and customer service engine ensure that this is accomplished with little to no effort by the agency. This makes mLotto a safe bet for any lottery.

See mLotto in action

© Copyright 2012 mLotto Inc.

mLotto Brochure spread

A lottery platform for the digital age

mLotto™ is the end-to-end solution that ushers state lotteries—and their games—into the age of the mobile web. Powered by a national leader in consumer-to-government payments, mLotto creates an environment where gameplay is not only intuitive and fast, but also in full compliance with state and federal guidelines.

As a white-label platform, mLotto allows each lottery to maintain the integrity of its brand while dramatically expanding its reach online or on the mobile web. mLotto's development capability and customer service engine ensure that this is accomplished with little to no effort by the agency. This makes mLotto a safe bet for any lottery.

“Nearly half of all Americans—46%—own a smartphone.”⁹⁹
mLotto gives your lottery the tools to reach this population, and the technology to convert them effectively.
<http://pewinternet.org/Reports/2012/Smartphone-Update-2012/Findings.aspx>

mWallet

With the latest in payment processing technology and a comprehensive licensing and compliance apparatus, mLotto creates convenience for the lottery customer while ensuring security for the lottery agency. Depending on individual state regulation, the mWallet can be funded using a credit/debit card, ATM transfer, and/or cash. mLotto adheres to PCI data security standards, is a registered Money Services Business (MSB), and holds money transmission licenses in each applicable state.

Customer Service

While the payment process is designed to be as seamless and intuitive as possible, customers also have access to 24 hour support through an in-house call center. mLotto adheres to responsible gaming standards at every consumer touchpoint, including online, through the mobile app, and in the call center.

Geolocation

When accessed through a mobile device, the application automatically detects the player's location using the Global Positioning System (GPS) embedded in the mobile device. This process ensures that no lottery tickets are purchased outside a participating state's borders in violation of federal law.

Age Verification

Players must be of age to complete registration and play a game. During mobile gameplay, age is verified using the mobile device's camera to capture an image of the 2-D barcode on the player's driver's license. The app then validates the information from the scanned barcode, granting (or denying) the player access.

Social Integration

Social integration enables Pool Play for all games and acts as a springboard for viral adoption.

JPayInc.com website

The screenshot shows the JPayInc.com website's product page for the JP4 Mini-Tablet. At the top, there is a navigation bar with links for Money, Email, Music & JP4, Video Visitation, Intel, Parole & Probation, About, and Contact. Below the navigation bar is a large image of the JP4 tablet device, which is a small, rectangular tablet with a screen displaying various icons. Below the image is a section titled "The JP4 Mini-Tablet" with descriptive text about its features and security. To the left of the text are three icons: a person icon with "JP4" on it, a music note icon with a keyboard, and a cloud icon with "Jpay". To the right of the text is a detailed description of the device's applications and battery life.

The JP4 Mini-Tablet

The JP4 mini tablet is the first of its kind in corrections. A hardened device with extensive security features and a wide range of inmate-facing media applications, the JP4 is specifically suited for use in corrections environments. It is designed to work in conjunction with the JPay Inmate Kiosk, which provides agency staff with a high degree of control over media content and authorized use.

Applications

The JP4 allows inmates to take the same applications available on the kiosk to their cell. With 8mb, 16mb and 32mb of optional storage capacity, inmates use the JP4 to browse and respond to email, listen to music, read eBooks, write grievance tickets, watch movies or play games. It is the first and only device to feature an email application for inmates; inmates can read and view saved emails and attachments and compose new emails on the device wherever they happen to be.

The JP4 mini tablet comes with 4 AA batteries; batteries typically last up to 75 hours of music playtime. Rechargeable lithium-ion battery powered devices are also available. JP4s can be purchased by the inmate through the kiosk or commissary, or the friends and family of an inmate can purchase one on behalf of their loved one from JPay.com.
